REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Independent claim 18 is allowable. No prior has been found that anticipates or renders obvious the limitation " a processing engine to generate a record structure foundation from the data, where the record structure foundation includes at least one query map and at least one dimension index record".

2. The combinations of prior art from Liddy et al (U.S. Patent No. 6,628,312), Crandall et al. (U.S. Patent No. 5,390,296) and Gilbert et al. (U.S. Patent No. 5,450,313) neither render obvious nor anticipates the combination of recited elements in light of claim 33. In particular, the combination of Liddy, Crandall, and Gilbert does not render obvious the limitation "generating a record structure foundation comprising at least one query map record and at least one dimension index record".

DRAWINGS

3. The drawings were received on 21 November 2005. These drawings are accepted.
